

RESEARCH INTERESTS	I am interested in Machine Learning and Data Mining for Time Series Analysis and Forecasting. My current researches include: <ul style="list-style-type: none"><li>• Multivariate time series forecasting</li><li>• Deep sequential &amp; temporal models and time series modeling</li><li>• Statistical and dynamic time series analysis and regression</li></ul>	
EDUCATION	University of Orléans	Orléans, France
	Ph.D. Candidate in Computer Science	Oct. 2019 – Present
	Dissertation: <i>Prediction of multivariate time series to accompany the activity of a franchise network positioned on the repair and maintenance of roofs</i>	
	Advisors: Assoc. Prof. Philippe Ravier, Assoc. Prof. Meryem Jabloun	
	Funding: This research was funded by ANRT (Association Nationale de la Recherche et de la Technologie) CIFRE N° 2019/0551 contracted with ATTILA Gestion	
	University of Orléans	Orléans, France
	Master of Science in Computer Science	Sept. 2017 – June 2018
	Ecole Polytechnique of University of Orléans	Orléans, France
	Ingénieur Diplômé in Computer Engineering	Sept. 2015 – June 2018
	Beijing Institute of Technology	Beijing, China
	Bachelor of Engineering in Electronics & Information Engineering	Sept. 2012 – June 2016
PROFESSIONAL EXPERIENCE	ATTILA Gestion	Lyon, France
	Machine Learning Engineer and Data Analyst	Oct. 2019 – Present
	<ul style="list-style-type: none"><li>• Used Power BI and Excel to identify, extract, and analyze different internal indicators of multiple franchise agencies.</li><li>• Used R, Python, and PyTorch to build multistep forecasting models for multivariate time series on enterprise data and standard datasets.</li><li>• Performed client segmentation using both traditional and time series clustering methods.</li><li>• Designed pipelines to evaluate the performance of different time series forecasting models.</li></ul>	
	ATTILA Gestion	Montargis, France
	Data Analyst Intern	Apr. 2018 – Sept. 2018
	<ul style="list-style-type: none"><li>• Used Excel and internal tools to analyze indicators of multiple franchise agencies.</li><li>• Literature study of statistical and machine learning models for time series analysis and forecasting.</li><li>• Compared and evaluated the performance of statistical, machine learning, and deep learning models for time series forecasting tasks.</li></ul>	
	eContent Store Sàrl	Luxembourg
	Software Development Engineer Intern	June 2017 – Aug. 2017
	<ul style="list-style-type: none"><li>• Acted as one of the core developers of the Android development team.</li><li>• Implemented major features and improvements for our AR product, including better technology selection, natural features training pipeline, and many bug fixes.</li><li>• Responsible for the development of a user-end WebGL tool for natural features training to benefit rendering.</li></ul>	

SCIENTIFIC KNOWLEDGE	<p><b>Programming</b> Python, R, Java, C/C++, C#, Swift, Matlab</p> <p><b>Frameworks/tools</b> PyTorch, scikit-learn, Unity Engine, OpenCV, PowerBI, Linux, Git</p> <p><b>Math</b> Machine Learning/Deep Learning, Data Mining, Time Series Analysis, Calculus, Linear Algebra, Probabilities and Statistics, Optimization Theory</p> <p><b>Languages</b> English (TOEIC/855, proficient), French (TCF/B2, upper-intermediate), Mandarin (mother tongue)</p>
